In this book, Suzanne Preston Blier examines the intersection of art, risk and creativity in early African arts from the Yoruba center of Ife and the striking ways that ancient Ife artworks inform society, politics, history and religion. Yoruba art offers a unique lens into one of Africa’s most important and least understood early civilizations, one whose historic arts have long been of interest to local residents and Westerners alike because of their tour-de-force visual power and technical complexity. Among the complementary subjects explored are questions of art making, art viewing and aesthetics in the famed ancient Nigerian city-state, as well as the attendant risks and danger assumed by artists, patrons and viewers alike in certain forms of subject matter and modes of portrayal, including unique genres of body marking, portraiture, animal symbolism and regalia. This volume celebrates art, history and the shared passion and skill with which the remarkable artists of early Ife sought to define their past for generations of viewers.

Tourist art may be a billion dollar business. Nevertheless, such art is despised. What is worse, the “bad” culture is seen as driving out the “good.” Commercials are assumed to destroy traditional arts and crafts, replacing them with junk. The process is seen as demeaning to artists in the traditional societies, who are seduced into a type of whoredom: unfeeling production of false beauty for money. The arts remain problematic for the social sciences. Sociology textbooks treat the arts as subordinate reflections of social forces, norms, or groups. An anthropology textbook conventionally isolates the arts in a separate chapter, failing to integrate them with analyses of kinship, economics, politics, language, or biology. Textbooks reflect the guiding theories, which emphasize such factors as modes of production, patterns of thought, or biological and normative constraints, but their authors have not adequately formulated the aesthetic dimension. One may compare the theoretical status of the arts to that of religion. After the contributions by Emile Durkheim and Max Weber, the sociology of religion is well established, but where is a Durkheim or Weber for the sociology of art? What is true of the social sciences in general holds for understanding of modernization in the Third World. These processes and those places are analyzed economically, politically, and socially, but the aesthetic dimension is treated in isolation, if at all, and is poorly grasped in relation to the other forces.

Alois Riegl's Stilfragen represented a turning point in defining art and understanding the sources of its inspiration. Demonstrating an uninterrupted continuity in the history of ornament from the ancient Egyptian through the Islamic period, Riegl argued that the creative urge manifests itself in both "great art" and the most humble artifact, and that change is an inherent part of style. This new translation, which renders Riegl's seminal work in contemporary, readable prose, allows for a fresh reexamination of his thought in light of current revisionist debate. His discovery of infinite variation in the restatement of several decorative motifs—the palmette, rosette, tendril—led Riegl to believe that art is completely independent from exterior conditions and is beyond individual volition. This thinking laid the groundwork for his famous concept of Kunstwollen, or artistic intention. "Something that the translation will, I hope, convey, is the passion invested in Riegl's enterprise. We are made to feel that the issues he discussed mattered vitally to him; it was the very nature of art and its relation to human life that were at stake, art as an absolute necessity." --From the preface of Henri Zerner Alois Reigl (1858-1905) was Curator of Textiles at the Museum of Art and Industry in Vienna during most of his career and wrote many influential works on the history of art, including Spatromische Kunstgeschichte. Contesting Art Why did she edit her wedding-day journal? Almost-spinster schoolteacher Rosette Cordelia Ramsdell married Otis Churchill on a Michigan farm in 1857. Her real-life journal recounts two years of homesteading, history hints at the next six decades, and the novel explores the truth. We meet Rosette in 1888 as she revises the wedding-day page of her journal. In lush detail, in the voices of Rosette and others, the novel traces how we both choose and suffer our destiny, how hopes come to naught and sometimes rise from the wreckage.

The Art of Rosette Cooking Now firmly established in the ceramics world, paperclay is a vital part of the modern clay artist and potter's repertoire. The workability of this material allows expressive freedom and imagination at every stage in the creative process, from wet to dry. Paperclay, made with new or recycled paper, is remarkable for its flexibility, unfired strength, and the ease with which it can be repaired, and allows the creation of beautiful finished forms. Building on the immense success of her previous Ceramics Handbook Paper Clay, pioneering artist, researcher and teacher Rosette Gault (M.F.A.) explains how pots and clay sculptors can make, fire and use the material. In addition to the basics, she introduces more advanced techniques for building armatures, sculpting figures and making works for the wall. Packed throughout with photographs of inspiring works by a new generation of paperclay artists, Paperclay: Art and Practice is an essential introduction to the medium.

Bulletin Paper clay, a plastic modeling mix of clay, paper pulp, and water, is an extraordinarily versatile material. It is easy to use, extremely strong in an unfired state, and easily repairable at nearly every stage in the forming process. The final glazed and fired result can be indistinguishable from conventional clay, except that paper clay products are much lighter in weight. This last feature is particularly useful for wall installations and delicate sculptural forms. A relatively recent development, paper clay has been a mixed blessing for sculptors. While it is extremely malleable, its short drying time can lead to cracking and fragility. In this revised and expanded edition of Paper Clay, Rosette Gault clearly explains how to make, use, and fire paper clay successfully. She also brings the reader up to date on new developments in the field, including methods for the ecologically sound use of paper clay. This handbook incorporates several helpful charts and illustrations, featuring firing schedules and proportion guidelines, as well as cross sections and templates for common forms. Using the work of an international group of artists, Gault illustrates the flexibility of this exciting medium in a clear and accessible style. The text is replete with photographs and figures to demonstrate the techniques and their innumerable artistic applications.

Bulletin Art is a major political weapon of our times. Today, peoples around the world use art to boost their own identity and to attack the ways others represent them. At a time of increasing intercultural exchange, art has become a primary means through which groups reinforce their challenged sense of culture. This pioneering book breaks with the tradition of the anthropology of art as the depoliticized study of aesthetics in exotic settings. Transcending artificial distinctions between the West and the Rest, it examines the increasingly significant relations among art, identity and politics in the modern world. Among the themes investigated by the contributors: - how African painters undermine racist stereotypes yet remain dominated by the Western art market - the role of anthropology museums in the perpetuation of the Western market in ‘tribal art’ - the internal and external political disputes underlying the ‘repatriation’ of cultural property.

The Messages of Tourist Art With a radically changing world, cultural identity and images have emerged as one of the most challenging issues in the social and cultural sciences. These changes provide an occasion for a thorough reexamination of cultural, historical, political, and economic aspects of society. The INOR (Iceland and Images of the North) group is an interdisciplinary group of Icelandic and non-Icelandic scholars whose recent research on contemporary and historical images of Iceland and the North seeks to analyze the forms these images assume, as well as their function and dynamics. The 21 articles in this book allow readers to seize the variety and complexity of the issues related to images of Iceland.

This second edition includes an updated and expanded introduction and new bibliography by Holocaust scholar Lawrence L. Langer. “Delbo’s exquisite and unflinching account of life and death under Nazi atrocity grows fiercer and richer with time. The superb new introduction by Lawrence L. Auschwitz and After Once seen as a collection of artifacts and ritual objects, African art now commands respect from museums and collectors. Bennetta Jules-Rosette and J.R. Osborn explore the reframing of African art through case studies of museums and galleries in the United States, Europe, and Africa. The authors take a three-pronged approach. Part One ranges from curiosity cabinets to virtual websites to offer a history of ethnographic and art museums and look at their organization and methods of reaching out to the public. In the second part, the authors examine museums as ecosystems and communities within communities, and they use semiotic methods to analyze images, signs, and symbols drawn from the experiences of curators and artists. The third part introduces innovative strategies for displaying, disseminating, and reclaiming African art. The authors also propose how to reinterpret the art inside and outside the museum and show ways of remixing the results. Drawing on extensive conversations with curators, collectors, and artists, African Art Reframed is an essential guide to building new exchanges and connections in the dynamic worlds of African and global art.

Correspondance de Napoléon Ier: 5 mars 1798-21 septembre 1798 Take your succulents to the next level with these stylish and creative projects. From blue-green to purple and pink, flower-shaped to squat and spiky or tall and fuzzy, the variety, versatility, and low-maintenance care of succulents makes them go-to plants for home gardeners. Here, succulent stylist Rachael Cohen shows that these traits also make succulents the ideal material for living art. Tiny, jewel-like succulents can be clipped and replanted in infinite combinations, and unlike cut flowers, they thrive in these arrangements. When planted in corks, they become charming living magnets; when placed in seashells, they are a delightful reminder of a day at the beach. Succulents can also grow nestled in moss, creating an opportunity for even more creativity: arrange them atop mini pumpkins or adorn a headband or a tiny wreath. In addition to illustrated step-by-step instructions for more than a dozen crafts, Cohen explains which succulents are best for each project, how to clip and prepare rosettes and leaves, and what to do when the plants outgrow their art pieces. Lush photographs throughout capture the natural beauty of the plants and boundless range of possible creations.
